This map is meant to be used as a source of information for those who want to walk to Santiago de Compostela.

There are walking guides for all the routes drawn on this map.

The numbers on the map correspond to the numbers in a list of walking guides belonging to the map.

For some routes there are several guides, that are mentioned in the list. There can be differences (sometimes small, sometimes somewhat bigger) in the details of the described routes. For instance in general (but not always) the routes described in a GR guide is longer than the corresponding pilgrims guide.

The list and the map are updated from time to time. The most recent one you can find on [www.santiagoroutes.nl](http://www.santiagoroutes.nl)
